Chemicals and care for
cars and motorcycles

About the company

LAVOR is a family — owned company created by engine engineers, Alexander and Alexey Lavrik

For more than 25 years of experience in the market, LAVOR has earned a reputation as an authoritative brand that is trusted, known and recommended.

The company has its own production facilities, a warehouse network, a team of highly qualified technologists, reliable suppliers and the opportunity to attract industry professionals to test products.

The company in numbers

We are getting better every year. We carefully listen to the market and its needs, constantly modernize production and expand capacities — this allows us to produce more than a hundred new products every year.

89

countries — the area
of LAVR presence

40

thousand m² — the area
of production facilities

27

thousand m² —
storage area

50

million units are produced
per year

600

SKUs in the company's
product portfolio

150

new SKUs are produced
annually

Contract manufacturing

Production of auto chemicals and car care under your own brand name.

Our production facilities allow us to produce products under your brand with full compliance with the technological cycle and the implementation of quality control for standardization (ISO).

Production stages:

1

Product development

2

Creating a brand for the customer's products

3

Formation of a test sample

4

Product certification

5

Manufacturing of products

6

Logistics of finished products

7 LAVR — is a trusted, well-known and recommended brand

LAVR produces auto chemicals and auxiliary products necessary to solve problems that arise during the operation of a car and prevent their occurrence.

We are one of the first who created effective auto chemicals and made it affordable for every car enthusiast in Russia.

2 Effective auto chemicals for prevention and repair

We are creating a new level of awareness culture in car maintenance by sharing our knowledge about its design and producing effective and safe products for timely prevention and repair.

Ln2510
400ml

Foam motor decoking COMPLEX

Complete cleaning of the combustion chamber and valves

HEAVY DUTY
FOAM FORMULA

PREVENTION OF PISTON
RINGS COKING

SAFE FOR ANTIFRICTION
COATINGS

Foam compound for cleaning the surfaces of pistons, the arch of the combustion chamber and valves from carbon deposits and tar. It is suitable for cleaning intake and exhaust manifolds, as well as air ducts in the cylinder head with disassembly. Prevents the occurrence of detonation, burnout of valves and glow ignition.

new

BEFORE

APPLYING

AFTER

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln2511 / 400 ml | 12 |

Liquid Engine Decoking EXPRESS

Unique liquid carbon remover in spray without oil change. The high-speed formula is specially designed to effectively solve the problem of coking piston rings of petrol and diesel engines.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln2502 / 190 ml | 20 |
| Ln2504 / 320 ml | 20 |

Engine decoking ML202

Classic liquid composition for decoking the cylinder-piston group. Cleans the bottoms of pistons, releases oil rings and compression rings, normalizes compression in cylinders. Suitable for cleaning all types of petrol and diesel engines.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln2506 / 190 ml | 20 |
| Ln2507 / 320 ml | 20 |

Engine Decoking ML203

Reinforced composition for fast and effective cleaning of pistons, compression and oil rings from persistent carbon deposits. High penetrating power softens and removes dirt in one hour. Normalizes oil consumption, equalizes compression, restores traction and speed characteristics of the engine.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln2508 / 190 ml | 20 |

Engine Decoking ML204

The most powerful composition for cleaning the cylinder-piston group. It has maximum cleaning properties and penetrating ability. In just one hour, it softens persistent deposits in the cylinders and restores the mobility of fully stuck piston rings. Reduces oil and fuel consumption, increases power and dynamics, equalizes compression. It is recommended for engines with high mileage and heavy deposits.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln2505 / 190/345 ml | 20 |

Set for Decoking and Flushing Engine

A combination of two products for cleaning the cylinder-piston group and the lubrication system from resinous-varnish and carbon deposits. It is recommended for use with increased oil consumption, reduced power, deterioration of pick-up and dynamics, smokiness, regular operation in urban conditions, as well as as a preventive measure as mileage increases.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln2515 / 1 L | 12 |

Motor decoking ML203 TRUCK

A highly effective compound for decoking large-volume engines of trucks and special equipment. Softens persistent tar-coke and carbon deposits, cleans piston surfaces, compression and oil removal rings, restores compression and eliminates increased oil and fuel consumption. One package is enough for decoking an engine with a volume of up to 12 liters

vendor code / packing quantity

Ln1008 / 320 ml 16

Ln1012 / 200 L 1

10-minute Engine Flush POWER SAFE

A cleaner of the lubrication system of a car with a mileage of more than 150,000 km. The increased amount of extreme pressure additives gently cleans engines with wear. Increases the efficiency of lubrication, frees up internal hydraulic drives, increases the service life of the oil by 10-20% by reducing the non-spillable residue.

vendor code / packing quantity

Ln1009 / 320 ml 16

10-minute Engine Flush HIGH TRAFFIC

A cleaner of the lubrication system of engines operated in urban traffic conditions. Cleaning and extreme pressure additives comprehensively clean, increase the effectiveness of lubrication. Frees internal hydraulic drives, increases the service life of the oil by 10-20% by reducing the non-spillable residue.

vendor code / packing quantity

Ln1005 / 330 ml 20

Engine Flush SOFT

Additive in oil for 150 – 200 km before its replacement. Prepares used oil for replacement, delicately affects deposits and removes them. Increases the effectiveness of the lubricant, frees the internal hydraulic drives, increases the service life of the oil by 10-20% due to the reduction of the non-spillable residue.

vendor code / packing quantity

Ln1002N / 330 ml 20

7-minute Engine Flush TURBO

The composition is based on a patented complex for cleaning the lubrication system from impurities formed during operation. At the molecular level, it dissolves deposits in turbocharged and boosted engines and safely removes them from the system, increasing the service life of the new oil.

vendor code / packing quantity

Ln1004 / 1 L 12

5-minute Engine Flush CLASSIC FOR TRUCKS

Designed specifically for commercial vehicles. Cleans the oil system from deposits formed during operation. It has a complex effect on the entire system and reduces the non-spillable residue. Contains a viscosity corrector to guarantee the safety of the procedure.

Ln1003N
345ml

5-minute engine flush CLASSIC

Suitable for flushing reduction gearboxes
and manual transmissions

REDUCES THE NON-SPILLABLE
RESIDUE BY 2 TIMES

SAFE FOR OIL SEALS
AND GASKETS

COMPATIBLE WITH ALL TYPES
OF ENGINE OIL

Compound for petrol and diesel engine oil system flushing. It softens and removes carbon and varnish deposits in layers, without clogging the oil receiver and channels of the oil system. It is recommended to be used before each oil change and after motor decoking.

BEFORE

AFTER

Ln1106
2 x 310ml

Complete cleaning of the cooling system in 2 steps set

It includes two products: acidic and alkaline

REMOVES COMBINED
IMPURITIES

RESTORES INTERIOR
HEATER OPERATION

INCREASES THE SERVICE
LIFE OF SYSTEM ELEMENTS

It is diluted with distilled water and removes organic and inorganic contaminants, including emulsions. Extends the service life of the new coolant by 30-40%. Suitable for all types of engine cooling systems for passenger cars and commercial vehicles.

BEFORE

AFTER

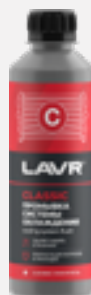

vendor code / packing quantity

Ln1007N / 310 ml 20

Cooling System Flush EXPRESS

The product is added to the antifreeze before it is replaced. Dissolves and removes scale and rust, decomposition products of the coolant and traces of oil formed during operation in liquid and combined systems. Prolongs the life of the radiator, pump and thermostat, increases the service life of the new antifreeze.

vendor code / packing quantity

Ln1103N / 310 ml 20

Ln1104 / 1 L 12

Cooling System Flush CLASSIC

Concentrated acid composition for the removal of inorganic contaminants accumulated in the cooling system during operation. Dissolves and removes scale and rust from the system. It is recommended for both liquid and combined cooling systems.

vendor code / packing quantity

Ln1105 / 310 ml 20

Ln1109 / 1 L 12

Stop Leak Radiator Sealant

Polymer composition for rapid restoration of the tightness of the cooling system. It does not require dismantling of the radiator. Safely eliminates leaks up to 2 mm in diameter in the radiator, heater stoves and other elements. It hardens only in places of leaks in contact with air, without clogging the system.

vendor code / packing quantity

Ln1742 / 310 ml 20

Cooling System Leakage Indicator

UV additive to the coolant to search for hidden and hard-to-detect leaks in the cooling system when it is impossible to determine the location during visual inspection. It does not clog radiators and is safe for cooling systems. Compatible with all types of coolant.

vendor code / packing quantity

Ln1705 / 1 kg 10

Ln1706 / 5 kg 4

Ln1707 / 10 kg 1

Ln1708 / 205 kg 1

Coolant ANTIFREEZE G11

High-quality traditional antifreeze with an advanced additive package for engine cooling systems of the latest generation. Prevents deposits formation and protects against corrosion. Service life 3 years or 140 000 km.

vendor code / packing quantity

Ln1709 / 1 kg 10

Ln1710 / 5 kg 4

Ln1711 / 10 kg 1

Ln1712 / 205 kg 1

Coolant ANTIFREEZE G12+

High quality carboxylate antifreeze for use with aluminum and cast iron cylinder block. Provides effective protection against high temperature and cavitation corrosion. Service life 5 years or 250 000 km of mileage.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln2134 / 310 ml | 12 |

Valve and Combustion Chamber Cleaner PETROL

A specialized directional additive in petrol for preventive cleaning of valves and combustion chamber. It is activated in the high temperature zone in the piston group of the engine and eliminates the initial deposits. Safe for catalysts and turbocharged engines.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln2137 / 120x3 ml | 20 |

Three-level Fuel System Cleaner ML100 PETROL

Additive for sequential addition to petrol. Replaces the flushing of injectors in the service station and removes up to 100% of dirt. Removes loose dirt and deposits on valves and injectors. Removes varnish and resinous deposits from the fuel system. Lubricates, protects against corrosion and the appearance of new dirt.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln2138 / 120x3 ml | 20 |

Three-level Fuel System Cleaner ML100 Diesel

Additive for sequential addition to diesel. Replaces the flushing of injectors in the service station and removes up to 100% of dirt. Removes loose dirt and deposits on valves and injectors. Removes varnish and resinous deposits from the fuel system. Lubricates, protects against corrosion and the appearance of new dirt.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln2103 / 310 ml | 12 |

Water Neutralizer PETROL

A preventive additive for petrol to safely remove moisture from the fuel tank. Neutralizes and removes water from the fuel, preventing the formation of ice and engine outages, making it easier to start the engine in cold weather. Protects the fuel system from corrosion and is safe for use with a catalytic converter.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln2104 / 310 ml | 12 |

Water Neutralizer DIESEL

A preventive additive in diesel fuel for safe moisture removal from the fuel tank. Neutralizes and removes water from fuel tanks, preventing the formation of ice, eliminating engine outages, and making it easier to start in cold weather. Protects fuel system components from corrosion and is safe for particulate filters.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln2125 / 310 ml | 12 |

Winter Fuel dehydrator

A universal additive for the safe removal of water from the fuel tank of a petrol and diesel car. Eliminates engine interruptions, facilitates start and prevents the re-formation of condensate in the fuel tank. Protects fuel system elements from corrosion.

vendor code / packing quantity

Ln2108 / 310 ml 12

Carburetor Cleaner PETROL

Specialised petrol additive for cleaning the injection system of vehicles fitted with carburettor engines. It safely removes deposits in carburetor jets, fuel channel and accelerator pump injectors. Prevents corrosion and increases the lubricating properties of petrol. The composition is activated in high temperature zones and does not clog the carburetor.

vendor code / packing quantity

Ln2109 / 310 ml 12

Injector Cleaner PETROL

A preventive directional additive in petrol for cleaning the injection system. It is activated in high temperature zones, restores the fuel injector spray pattern and improves the operation of the entire fuel system. Increases the lubricating properties of petrol, reduces fuel consumption and facilitates cold start.

vendor code / packing quantity

Ln2110 / 310 ml 12

Injector Cleaner DIESEL

A preventive directional additive in diesel for cleaning the injection system. It is activated in high temperature zones, restores the fuel injector spray pattern and improves the operation of the entire fuel system. It increases the lubricating properties of diesel, reduces fuel consumption and facilitates cold start.

vendor code / packing quantity

Ln2123 / 310 ml 12

Complex Fuel System Cleaner PETROL

An additive in petrol with complex action. The patented cleaning complex AVR ISP/DET™ effectively and safely removes deposits from the fuel system, preventing their re-formation. It restores the nozzle spray gun, facilitates cold start, and reduces fuel consumption. Removes water from the fuel system to prevent corrosion. Prolongs the life of the catalyst.

vendor code / packing quantity

Ln2124 / 310 ml 12

Complex Fuel System Cleaner DIESEL

An additive to diesel fuel with a complex action. The patented cleaning complex, AVR DSP/DET, effectively and safely removes deposits from the fuel system, prevents their re-formation, and restores the nozzle spray gun. It facilitates cold start and reduces fuel consumption. Removes water from the system to prevent corrosion and prolongs the life of particulate filters.

vendor code / packing quantity

Ln2127-L / 310 ml 12

Engine Fuel Booster PETROL

The additive in petrol improves the characteristics of commercial fuel, increasing the octane number to 100 and the combustion efficiency of the fuel-air mixture, which increases the power and allows you to safely operate the car in the mode of extreme loads.

vendor code / packing quantity

Ln2107 / 1 L 12

Superantigel with dispersant DIESEL -45°C for 1:500 — 2000 L

A depressant additive to improve the low temperature properties of diesel fuel and prevent it from solidifying. Allows you to safely operate the car at low temperatures. It is most effective at injection into fuel before its turbidity. It guarantees an engine cold start at a temperature up to -45°C.

vendor code / packing quantity

Ln2106 / 310 ml 12

Octane corrector PETROL

A special additive for increasing the octane number of petrol by 2 – 5, depending on the quality of the petrol used. Prevents detonation in the engine and improves the combustion process of the mixture. It is safe for the catalytic converter of exhaust gases and spark plugs.

Cetane corrector DIESEL

A special additive in diesel fuel to increase the cetane number. It helps to reduce the ignition period, ensures the completeness of the combustion of the mixture and reduces fuel consumption. It helps to prevent the negative consequences of using low-quality diesel fuel. It is recommended for all types of diesel engines.

Diesel Fuel Defroster

A specialized additive for restoring the filterability of frozen diesel fuel. In 20-30 minutes, it removes ice and paraffin plugs and ensures engine start. Prevents repeated freezing even in extreme temperatures.

Ln2140 / 310 ml 12

vendor code / packing quantity

Ln2126 / 120 ml 24

Injector cleaner TURBO

A petrol additive for cleaning the injection system of petrol turbocharged engines. It allows you to quickly and efficiently service the fuel system, eliminate problems associated with contamination of high-pressure injectors, without resorting to service centers. Does not clog the injectors with impurities from the fuel tank, fuel lines and filters.

Fuel Cleaning Additive UNIVERSAL

The universal cleaning additive eliminates the consequences of refueling with low-quality fuel and maintains the cleanliness of the entire fuel system. Promotes maximum combustion of the mixture, with regular use prolongs the life of the fuel system elements. It is used for petrol and diesel engines.

Injection System Flush for Diesel Engines ML102 ANTI COKS

Flushing with a decoking effect for nonremovable cleaning of diesel injection systems. The patented package of detergent additives eliminates up to 100% of dirt and restores the fuel injector spray pattern. Does not require oil change and spark plugs change. To be used with special flushing stations.

Injection System Flush for Petrol Engines ML101 EURO SOFT

Flushing with a traditional European composition for soft, nonremovable cleaning of petrol injection systems. Eliminates up to 100% of dirt in the injectors, restores the fuel injector spray pattern. Does not require oil change and spark plugs change. The product is compatible with any pneumatic stations, suitable for petrol engines with electronic injection systems of any type.

Injector Cleaning Fluid in Ultrasonic Baths

The injector cleaner in ultrasonic baths removes up to 100% of impurities of any complexity in 5 to 15 minutes. Cleans injectors and other parts of the fuel system from resinous, varnish and carbon deposits, restores the fuel injector spray pattern. It is used for cleaning fuel injectors of any type of petrol and diesel engines.

vendor code / packing quantity

Ln2012 / 1 L 12

Ln2004 / 5 L 1

Injector Testing Fluid for Test Benches

A specialized composition for monitoring the fuel injector spray pattern, performance and tightness of fuel injectors on diagnostic stands. It is suitable for testing petrol injectors of all types, including in modes with increased pressure and a higher opening frequency. Maintains a constant viscosity for a correct diagnostic procedure.

Ln2001

Petrol engine injection system flushing ML101

Reinforced composition

ENHANCED
DECOKING EFFECT

RESTORES THE FUEL
INJECTOR SPRAY PATTERN

NORMALIZES FUEL
CONSUMPTION

Flushing with a decoking effect for cleaning of petrol injection systems without disassembly. The patented detergent additive package eliminates up to 100% of impurities and restores the fuel injector spray pattern. It does not require change of oil and spark plugs. For use with special washing stations

BEFORE

AFTER

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln1737 / 85 g | 12 |

High-Temperature Silicone Gasket Maker RED

A special sealant for quick repair and sealing of heavily loaded adjacent assemblies and joints of engines, gearbox, transmissions and others. It can replace rubber, paper, gaskets, seals and rings.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln1738 / 85 g | 12 |

High-Temperature Silicone Gasket Maker BLACK

Special sealant for quick repair and sealing of heavily loaded adjacent assemblies and joints of engines, gearbox, transmissions and others. It has high adhesion to steel, cast iron and aluminum surfaces.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln1739 / 85 g | 12 |

High-Temperature Silicone Gasket Maker GREY

Special sealant for quick repair and sealing of heavily loaded adjacent assemblies and joints of engines, gearbox, transmissions and others. It does not contain acids and solvents, which ensures application in electrical connections and sensors.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln1740 / 70 g | 12 |

High-Temperature Silicone Gasket Maker CLEAR

Special sealant for quick repair and sealing of glass and plastic elements of the interior and exterior of the car: headlights, brake lights, glass and plastic elements. Suitable for household use.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln1720 / 60 g | 24 |

Cold welding Quick Curing Quick FIX

The two-component composition quickly and firmly connects concrete, wood, plastic, glass ceramics and other materials. It is used for gluing and correcting mechanical defects of various homogeneous and heterogeneous materials. The fusion is not unlike in strength to the welding.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln1721 / 60 g | 24 |

Multifunctional epoxy putty Multi FIX

The two-component composition quickly and firmly connects ferrous and non-ferrous metals, concrete, wood, plastic, glass, ceramics and other materials. It is suitable for repairing radiators, fuel tanks and simple bodywork, restores the thread of nuts and screws. The fusion is not unlike in strength to the welding.

vendor code / packing quantity

Ln1722 / 60 g 24

Cold welding Metal FIX

Two-component metal polymer composition quickly and firmly glues ferrous and non-ferrous metals, restores the lost elements of metal structures. Suitable for repairing radiator, fuel tank, crankcase, gearbox, simple bodywork, plumbing pipes. Restores the thread of nuts and screws. The fusion is not unlike in strength to the welding.

vendor code / packing quantity

Ln1731 / 9 ml 24

Threadlocker «Non-removable» Strong FIX

The composition seals and fixes threaded joints that require dismantling only in case of major repairs. Prevents self-unscrewing of parts under vibration and shock loads. It polymerizes quickly and is resistant to technical liquids. It is used on any threaded joints made of ferrous metals.

vendor code / packing quantity

Ln1732 / 9 ml 24

Threadlocker «Non-removable» Heat Resistant Therm FIX

Seals and fixes threaded joints that are subject to high temperature loads and require dismantling only in case of repair. Prevents self-unscrewing of parts under vibration and shock loads. Resistant to technical liquids. For any threaded joints made of ferrous metals.

vendor code / packing quantity

Ln1733 / 9 ml 24

Threadlocker «Removable» Middle FIX

Seals and fixes threaded joints that require periodic disassembly during maintenance. Prevents self-unscrewing of parts under vibration and shock loads. It polymerizes quickly and is resistant to technical liquids. For any threaded joints made of ferrous metals.

vendor code / packing quantity

Ln1754 / 20 g 24

2-component epoxy glue

A professional 2-component compound for high-strength bonding of products made of the majority of heterogeneous materials. Provides reliable repair of hard-to-reach damages if disassembly is not possible. Eliminates cracks, defects and gaps, making the products functional again.

vendor code / packing quantity

Ln1764 / 3 g 288

Superglue ROCKET

Super-strong compound for instant bonding of most materials: porcelain, ceramics, wood, leather, rubber, metal, cork, cardboard and various types of plastic. The high strength of the connection will allow the product to continue to be fully used. It is resistant to all types of lubricants and withstands temperature changes.

Ln1491 / 400 ml 12

Liquid Wrench

A specialized product to facilitate the dismantling of stuck and rusted joints and assemblies. The composition with the highest penetrating power penetrates deeply into threaded joints, displaces moisture, protects against corrosion and oxidation.

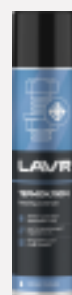

vendor code / packing quantity

Ln1481 / 210 ml 12

Liquid Wrench with molybdenum disulfide

The product facilitates the dismantling of rusted and stuck threaded joints. Prevents thread breakage, displaces moisture from the joints of parts. Molybdenum disulfide additionally reduces friction and guarantees long-term protection against corrosion and sticking of joints for subsequent dismantling.

vendor code / packing quantity

Ln2414 / 400 ml 12

Thermal key

A professional tool with a shock-freezing effect to facilitate the dismantling of any rusted and stuck threaded connections. Its highest penetrating power quickly separates bolts and nuts, and it is safe for use on products made of steel, brass, silumin, aluminum, cast iron, etc.

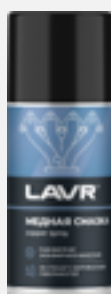

vendor code / packing quantity

Ln1485 / 210 ml 12

Adhesive Grease Spray

Product for lubrication and corrosion protection of assemblies, hinges, locks, door hinges operating under increased loads. Reduces friction, noise, and wear of parts. It has high adhesion to vertical surfaces and does not drain.

vendor code / packing quantity

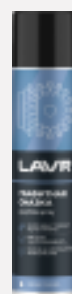

Ln2422 / 140 ml 12

Ln1483 / 210 ml 12

Ln2423 / 400 ml 12

Copper Spray

The spray lubricant with a high content of copper powder prevents sticking, welding and corrosion of thermally loaded parts. It is used for threaded joints of exhaust and brake systems, bolts and studs of wheel hubs, spark plugs and glow plugs.

vendor code / packing quantity

Ln1478 / 210 ml 12

Ln2428 / 400 ml 12

Graphite Lube spray

The lubricant protects the mechanisms from wear, friction and corrosion. Displaces moisture and creates an electrically conductive coating. Fine graphite remains in the assembly for a long time, providing antifriction properties.

Synthetic Chain Lube

Synthetic lube is for bicycle and motorcycle chains. Antifriction additives penetrate into the links and ensure smooth gear shifting and quiet operation of mechanisms. The lube does not contain adhesive components and prevents the adhesion of sand and dirt.

PTFE White Chain Lube

Teflon lubricant with a complex of antifriction additives provides long-term protection of the drive chains of bicycle and motorcycles and power products, equipment. The composition is evenly and economically applied, securely fixed and creates a strong protective layer, prevents dirt, displaces moisture. Prevents stretching and wear even with dry friction.

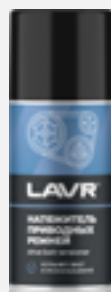

Universal Lube

Protects gearshift mechanisms, cables, rods and bicycle elements from abrasion, corrosion, and wear. Suitable for bicycle preservation.

Rust remover with zinc

REMOVES CORROSION
IN 10 MINUTES

EXTREME
PENETRABILITY

SIMPLIFIES THE PREPARATION
FOR PAINTING

Forms a protective zinc coating and prevents metal from another failure. Zinc ions create a crystalline compound and improve paint adhesion to metal. Loosens rusted bolts, screws, and nuts. Easy application and quick penetration into the rust allow to monitor the surface treatment process.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln1434 / 120 ml | 36 |
| Ln1435 / 330 ml | 20 |

Rust Remover

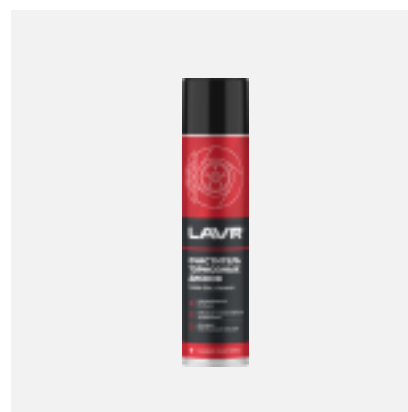

Quickly and safely removes rust on large surfaces. It improves soil and paint adhesion to metal and prevents the paintwork destruction. It is suitable for loosening of rusted joints

| Ln2417 / 335 ml | 12 |
| Ln1493 / 400 ml | 12 |
| Ln1494 / 650 ml | 12 |

Throttle Valve Cleaner

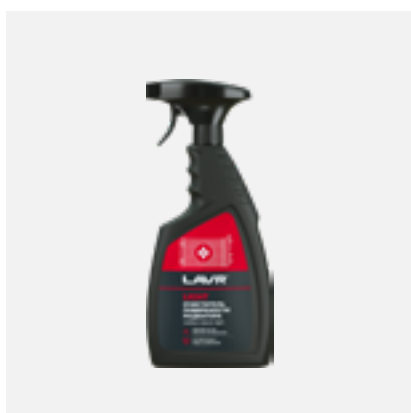

Spray for cleaning of the throttle assembly without dismantling from resinous-varnish deposits and carbon deposits. It acts on dirt with a directed flow, quickly cleans metering channels, jets, dampers and filter grids. Provides optimal mobility of parts.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln1495 / 400 ml | 12 |
| Ln1498 / 650 ml | 12 |
| Ln1499 / 20 L | 1 |
| Ln1492 / 200 L | 1 |

Brake Disc Cleaner

Professional cleaner cleans elements of the brake system from tar, carbon deposits, oil and other dirt. Increases braking efficiency, reduces braking distance, eliminates creaking and grinding. Contains safe solvents, does not provoke corrosion. For all types of car brake systems.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln2031 / 500 ml | 20 |

Radiator Cleaner Light

Foam composition for cleaning the exterior surface of the cooling system radiators, air conditioner, intercooler, lubrication system, gearbox from light and medium dirt, such as road dirt, salt, antifreeze drips and insect traces. It works in 5 minutes, is easily washed off with water and can be used without dismantling radiators.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln3512 / 210 ml | 12 |
| Ln1728 / 335 ml | 12 |

Electrical Contact Cleaner

The composition quickly restores the electrical conductivity of contacts, terminals and connectors. Removes oxides, traces of oil, eliminates current leaks. The cleaner does not contain oils and silicones. Completely evaporates, leaving no traces. It is used for all types of connections of the electrical part of the car.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln3513 / 210 ml | 12 |

Protection of Terminals and Contacts

A special tool that forms a strong heat-resistant film. Reliably protects electrics from oxidation, prevents corrosion, eliminates voltage drop and current leakage.

vendor code / packing quantity

Ln1749 / 650 ml

12

Paint washing off

A universal product for quick removal of old paintwork, including from products with complex geometries. It is efficient for the majority of paintwork: oil, alkyd, nitrocellulose, acrylic, melamine alkyd. The gel-like structure of the product prevents draining from vertical surfaces.

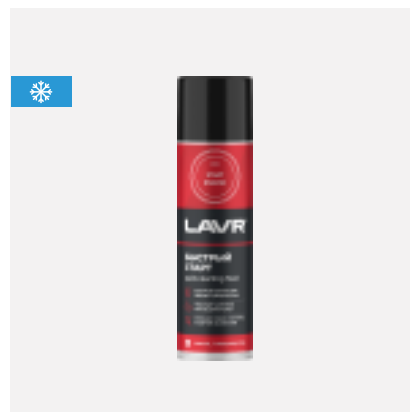

vendor code / packing quantity

Ln2415 / 650 ml

12

Movil with zinc

A product for anti-corrosion protection of hidden cavities of the car. Forms a resistant protective coating. It is convenient for treating hard-to-reach places thanks to a thin sprayer. Zinc creates additional barrier and electrochemical protection. It retains elastic properties even at low temperatures.

vendor code / packing quantity

Ln1546 / 335 ml

12

Quick Start Engine

A specialized aerosol for spraying into the intake system of petrol and diesel engines. Makes it easier to start in conditions of low temperatures, high humidity and low-quality fuel refueling.

| Ln2013 | 1 |

Pneumatic Injector Flushing Station (basic) LAVR

A pneumatic station for injection system flushing without dismantling is a profitable purchase, which quickly pays off due to the demand for the procedure. The reliable and inexpensive station is compact, convenient and easy to use. It is equipped with a pressure sensor and a reduction gearbox, equipped with basic adapters for petrol and diesel engines.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln2014 | 1 |

A set of fittings for a pneumatic station LAVR

The kit contains all the necessary parts for injection flushing without dismantling using a pneumatic station: adapters, short-circuits, couplings, hoses, connectors and seals. Reliable quality, long-term operation and Italian components guarantee a profitable purchase.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln2016 | 1 |

Pneumatic station GX-100

A reliable pneumatic station for flushing of injectors without dismantling is a profitable purchase that pays off in 8 procedures. Flushing the injection in this way is easy and effective. The procedure takes about an hour, does not require oil and spark plugs change. The compact station is equipped with a set of adapters for petrol and diesel engines, a pressure monitoring sensor and a reduction gearbox.

Compression gauge

A device for measuring compression in automobile and motorcycle petrol internal combustion engines with a plug hole thread M14× 1.25. Measurements are carried out using a threaded sleeve or a pressure rubber sleeve. Engines with other types of plug hole threads are also diagnosed using a pressure rubber sleeve.

LAVR PROLINE

7 LAVR PROLINE is a professional line of auto chemicals

LAVR PROLINE — is a special line of products designed for high-quality car maintenance.

The products are designed to improve the efficiency and speed of car maintenance at car service stations and dealerships.

2 Enhanced formulas and especially selected components

The formulas of LAVR PROLINE compositions have passed numerous tests before they were put into production.

vendor code / packing quantity

Ln2000 / 1 L 12

Petrol engine injection system flushing ML101 PROLINE

A professional compound for washing petrol injection systems with an updated formula, designed especially for the requirements of service stations. It is highly effective for cleaning engines with reduced compression ratios and heavily contaminated injection system components. It provides cleaning of compression rings and prevention of catalyst contamination.

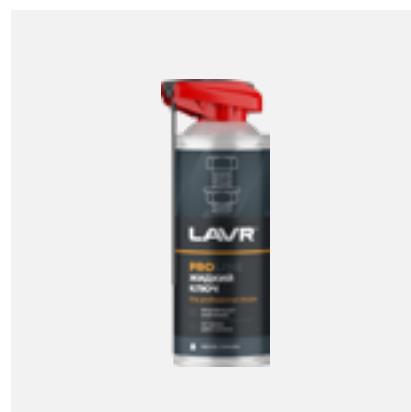

vendor code / packing quantity

Ln2009 / 1 L 12

Diesel engine injection system flushing ML102 PROLINE

A professional compound for washing diesel injection systems with an updated formula, designed especially for the requirements of service stations. It is highly effective for cleaning engines with reduced compression ratios and heavily contaminated injection system components. It provides cleaning of compression rings and prevention of particulate filter contamination.

vendor code / packing quantity

Ln3533 / 520 ml 12

Ln3510 / 650 ml 12

Liquid key PROLINE

A professional product for simplifying the disassembly of any stuck and rusted threaded joints. Quickly disconnects bolts and nuts, prevents thread breakage due to the highest penetrability. The compound is odorless and sprayed in all positions. Designed especially for use in service stations.

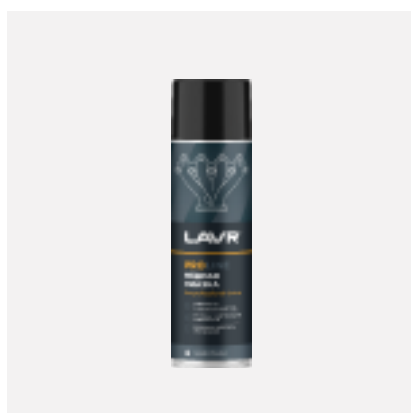

vendor code / packing quantity

Ln3507 / 650 ml 12

Hinge adhesive spray PROLINE

A professional very sticky compound with high penetrating power for lubricating door mechanisms, guides, slides, various hinges and bushings operating under high loads. It adheres perfectly to the surface, reducing friction, noise and wear of parts and protects them from corrosion. Designed especially for use in service stations.

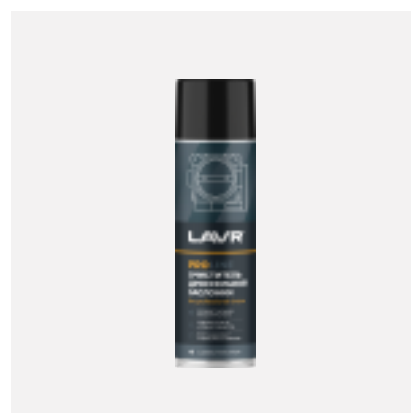

vendor code / packing quantity

Ln3509 / 650 ml 12

Copper spray PROLINE

A professional lubricant for threaded joints of exhaust and brake systems, bolts and studs of wheel hubs, spark plugs and incandescent bulbs operating in extreme temperatures. Prevents fusion and sticking of parts, as well as corrosion and moisture ingress. It is applied evenly without draining from vertical surfaces.

vendor code / packing quantity

Ln3519 / 650 ml 12

Throttle Valve Cleaner PROLINE

Professional cleaner of throttle assembly without dismantling. The spray has a 360° valve and easily removes varnish and carbon deposits. It improves acceleration rate of the engine, stabilizes idling and reduces fuel consumption.

vendor code / packing quantity

Ln3516 / 650 ml 12

Brake Disc Cleaner PROLINE

Professional spray cleaner for brake disks - a product that guarantees the efficiency and long service life of mechanisms. Removes soot, oil and road dirt.

vendor code / packing quantity

Ln2021 / 500 ml 12

Foam Engine Parts Cleaner PROLINE

A professional product for rapid removal of complex dirt from engine parts and industrial equipment. Thanks to the penetrating foam and the innovative Strength Foam formula, it splits oil deposits, old soot, slimes, carbon deposits, varnishes on parts in 2 minutes.

vendor code / packing quantity

Ln2020 / 1 L 12

Foam Engine Parts Cleaner Concentrate PROLINE

A professional concentrated product for removing complex dirt from any engine parts and industrial equipment. Thanks to the innovative Strength Foam formula and deeply penetrating foam cleans oil deposits, old soot, slimes, carbon deposits, varnishes in 2 minutes.

vendor code / packing quantity

Ln2030 / 1 L 12

Radiator Cleaner Concentrate PROLINE

Professional concentrate for cleaning the exterior surface of the cooling system radiator, air conditioner, intercooler, lubrication system, gearbox. The surfactant FoamCore forms abundant foam, which pushes complex old dirt out of the honeycomb and returns the radiator to a new look in 5 minutes.

vendor code / packing quantity

Ln2008 / 1 L 1

Particulate Filter Cleaner PROLINE

A special product for restoring particulate filter functionality removes up to 100% of deposits. It contains only safe components, so it is completely harmless to the filter and catalyst elements. Can be reused.

Ln2032
500ml

Radiator surface cleaner **PROLINE**

HEAVY-DUTY DEEP
PENETRATING CLEANER

HIGH FOAMING
FOAM CORE

CLEANING THE RADIATOR
UNTIL IT IS BRAND NEW

A professional product for cleaning heavily soiled surfaces of the cooling system radiator, air conditioner, intercooler, lubrication system, gearbox and others. Penetrates into the structure of impurities and forms an abundant foam due to the Foam Core substance. In 5 minutes, it splits ingrained road dirt, salt, antifreeze streaks and insect tracks.

flushing

By implementing our services, you get:

Training your team
on the specifics of working
with the product through
detailed process maps.

Field workshops and
online training on the
peculiarities of working
with the product, as well
as sales techniques for
LAVR services.

Marketing materials for
additional promotion
of lavr services.

Support from the staff
of the LAVR technical
support center.

Posting the contact details
of your car service on the
official website lavr.ru with
the possibility of direct
registration for services.

Increasing confidence in
the service station due
to recommendations and
official certification from
the manufacturer.

7 An important tool for comprehensive car care

LAVR car care is a balanced product portfolio consisting of products for full-fledged professional care of the interior, body, wheels and windows of the car.

2 Professional result with your own hands

LAVOR car care compositions are thoroughly developed, which allows you to achieve professional results without much effort.

Car Body Polish CARNAUBA

The product improves the appearance of the car or motorcycle body and gives additional protective properties. Carnauba palm wax provides a strong protective film and glossy shine, and also protects the treated surface from fading and exposure to road dirt.

vendor code / packing quantity

Ln1448 / 500 ml 18

Quick Wax

A product for fast finishing of the car body after washing. Instantly refreshes the color of the paintwork and gives it richness and shine. Forms a protective hydrophobic film on the surface and does not require polishing, which reduces the drying time of the car after washing.

vendor code / packing quantity

Ln1449 / 1 L 12

Quick body wax concentrate 1:50-1:100

It has a high water repellency, provides fast drying after washing, protects the surface from rain and chemicals. With regular use, it protects the paintwork from fading and cracking, provides a high level of gloss.

vendor code / packing quantity

Ln1486 / 500 ml 18

Ln1487 / 1 L 12

Superfast Car Body Polish

A product for quick polishing of the car body. The surface treatment time is reduced thanks to a special composition. The polish is easy to use and provides a bright gloss of the paintwork. Creates a hydrophobic coating that protects the body from water and dirt.

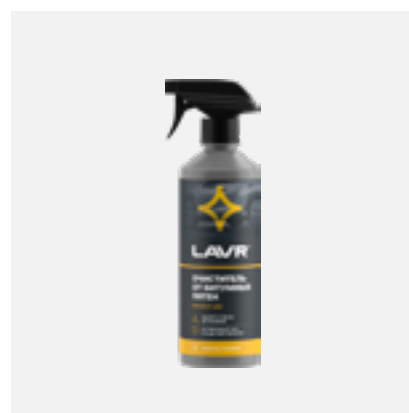

vendor code / packing quantity

Ln2410 / 100 ml 24

Chrome polish cleaner

An effective product for the care of chrome, nickel-plated, aluminum and other metal surfaces. Cleans from oxides, deposits and traces of rust. Returns the original novelty and shine, masks scratches and scuffs. Creates a protective coating from the effects of the environment and road chemicals.

vendor code / packing quantity

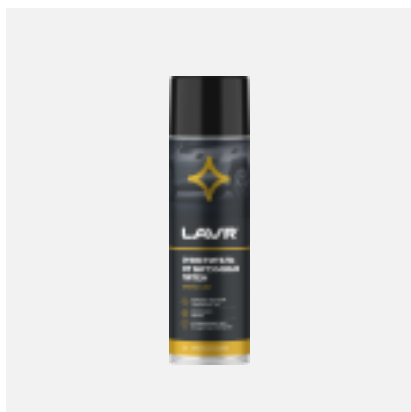

Ln1403 / 500 ml 18

Ln1428 / 1 L 12

Ln1424 / 4 L 1

Tar Remover

Easily cleans tar, gum and other oil dirt from the body, wheel disks and windows. The formula with a complex of active substances quickly and safely handles even complex and old dirt. Silicone in the composition creates additional protection.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln1412 / 650 ml | 12 |

Tar Remover

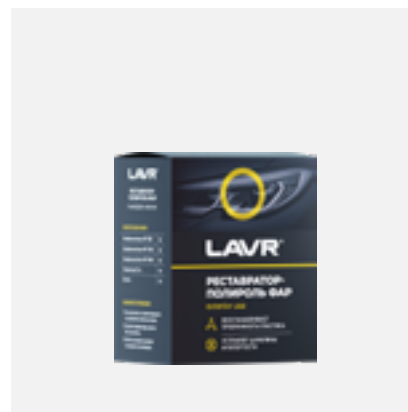

Removes tar from the body, bumpers, wheels and windows of the car. The improved formula and aerosol format make it possible to deal with oil dirt much faster and more effectively. Gently cleans without affecting the paintwork and other coatings of the car.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln1444 / 1 L | 12 |

Cherry Wax Concentrate 1:40-1:80

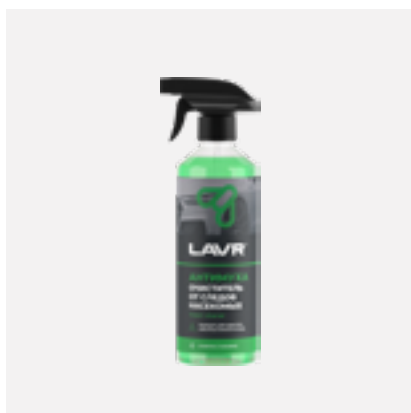

Professional cherry-scented wax quickly forms a stable water-repellent film on the surface and protects the car body from stains after rain, road dust and reagents.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln1468 / 20 ml | 20 |

Headlight Polish

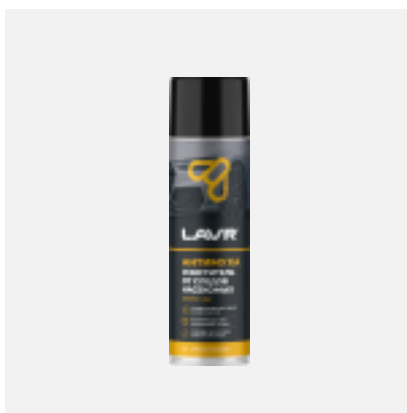

A set of abrasive materials and finishing paste for polishing plastic car headlights. The product restores the transparency of plastic headlights, removes scratches and blurs formed during long use, greatly increases the efficiency of lights. The special composition ensures a lasting result after polishing.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln1421 / 500 ml | 18 |
| Ln1420 / 1 L | 12 |

Insect Cleaner / Concentrate 1:7

A product that easily removes organic dirt and old insect traces from the body. It is suitable for radiator surface cleaning. A concentrated composition is offered in cans.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln1430 / 650 ml | 12 |

Insect trace remover Anti Fly

Quickly and effectively removes hard-to-remove traces of insects and other organic contaminants. It has increased stability on vertical surfaces due to its foam composition. It does not require rinsing with water and does not leave streaks. Safe for paintwork, protective and vinyl films, rubber and plastic.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln2400 / 125 ml | 24 |

Poplar Bud Cleaner

Removes old traces of poplar buds, tree resins, bird droppings and other organic dirt. It is easily washed off with water, leaves no stains and streaks. It is safe for paintwork, rubber, glass, plastic and other materials.

Ln1427
650ml

Black Tire Shine Conditioner

RESTORES THE COLOR WITH
THE EFFECT OF WET TIRES

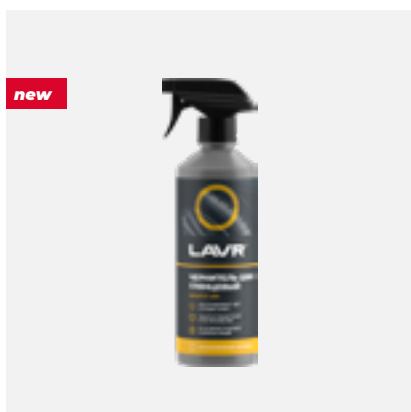

SLOWS DOWN THE AGING
AND CRACKING PROCESS

RETAINS THE EFFECT
OF UP TO 4 WASHINGS

It is applied evenly, does not leave greasy stains and streaks. It retains the blackening effect for a long time, providing protection from temperature fluctuations, fading and tarnishing. Prevents cracking, significantly slowing down the aging process of rubber. One package is enough for up to 50 tires.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln1475 / 500 ml | 18 |
| Ln1476 / 1 L | 12 |

Shine Black Tire Conditioner

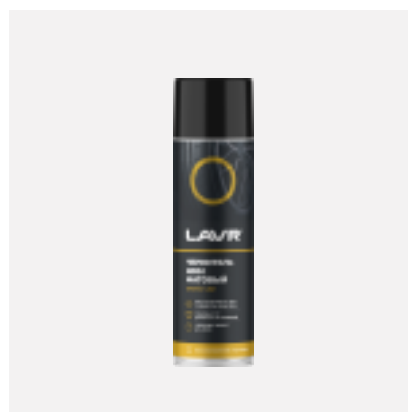

A product for renewing the appearance and cleaning tires and plastic elements. Enhances color saturation, leaving a glossy finish, protects rubber from aging and cracking. Forms a thin elastic film with moisture- and dirt-repellent properties. It does not affect the paintwork and the coating of the wheels.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln1473 / 1 L | 12 |

Black Tire Polish Concentrate 1:2-1:3

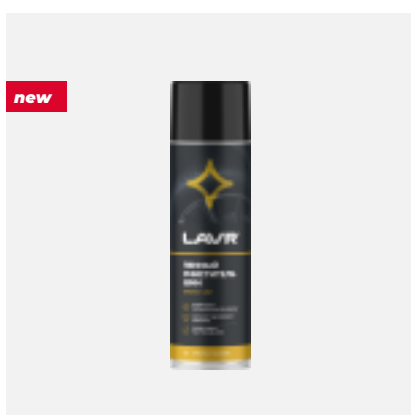

A concentrated product for renewing, cleaning and protecting bumpers and tires from aging and cracking. Provides a rich black color and glossy shine to rubber tires and plastic parts of the car. It is quickly and easily applied without requiring a long polish.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln1433 / 650 ml | 12 |

Matte Black Tire Conditioner

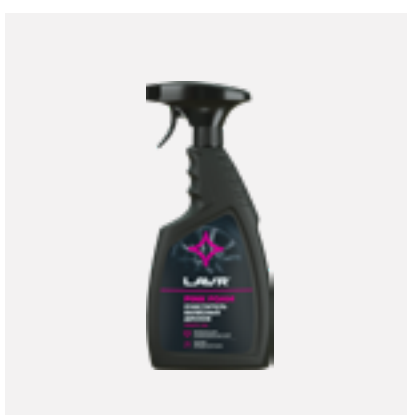

Effective aerosol product for tire care and protection. Restores a deep black color and forms a protective cover extending tire service life. The compound is evenly spread over the whole tire side surface and leaves no greasy spots and streaks. Suitable for plastic elements.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln2424 / 255 ml | 20 |
| Ln1443 / 650 ml | 12 |

Foam Tire Cleaner

A comprehensive product for cleaning the side surfaces of car tires, as well as protection against cracking and premature aging. Active foam effectively removes dirt and gives the rubber a rich black color.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln1439 / 500 ml | 12 |

Wheel Disk Cleaner PINK FOAM

Professional composition for removing dirt, oil deposits and brake wear products. Abundant pink foam effectively and quickly affects dirt. The composition is easily washed off with water and is safe for coatings.

Ln1603 / 255 ml 20

Ln1601 / 500 ml 18

Glass Cleaner CRYSTAL

A product for glasses, mirrors, headlights and other surfaces. It removes ingrained dirt, insect traces, and road chemicals, oil deposits, greasy and nicotine stains without rubbing.

vendor code / packing quantity

Ln1621 / 400 ml 12

Foam Glass Cleaner

A highly effective product for cleaning and treating glasses, mirrors, car headlights and in household. The foam formula quickly removes all types of operational dirt, without leaving streaks on the surface. The composition is ideal for cleaning glass from the outside and from the inside.

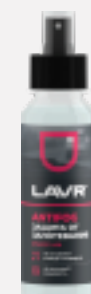

vendor code / packing quantity

Ln1617 / 255 ml 20

ANTIRAIN for glass and mirrors

A compound for the treatment of car windows and mirrors, designed to improve visibility through the windshield during heavy rainfall. Forms a transparent hydrophobic coating on the treated surfaces. The protective film promotes instant rolling of water droplets from the windshield and other treated surfaces.

vendor code / packing quantity

Ln1618 / 125 ml 24

Ln1619 / 255 ml 20

ANTIFOG for glass and mirrors

A special liquid for car windows and mirrors, as well as the inner surface of the visor of motorcycle helmets. The product prevents the formation of moisture droplets and prevents fogging of surfaces for a long time. Application in household is allowed.

vendor code / packing quantity

Ln1218 / 250 ml 20

Glass Washer Concentrate Anti-Insect LEMON

A product for removing road dust, traces of insects, oil stains and other types of dirt from the car windshield. Does not leave any streaks and iridescent film. Protects the washing system from the formation of lime deposits. It is safe for coatings and use in fan injectors and headlight cleaning systems.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln1215 / 125 ml | 24 |

Glass Washer Anti-Insect Concentrate ORANGE

A concentrated product with increased washing capacity quickly removes all kinds of dirt. Protects the washing system from deposits and blockages. Does not leave any streaks and film. It is used sparingly, has a light citrus aroma.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln1220 / 125 ml | 24 |

Glass Washer Anti-Insect Concentrate GREEN

A concentrated product with increased washing capacity quickly removes all kinds of dirt. Protects the washing system from deposits and blockages. Does not leave any streaks and film. It is used sparingly, has a light apple aroma.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln1225 / 125 ml | 24 |

Glass Washer Anti-Insect Concentrate CRYSTAL

A concentrated product with increased washing capacity quickly removes all kinds of dirt. Protects the washing system from deposits and blockages. Does not leave any streaks and film. It is used sparingly, has neutral scent.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln1210 / 4 L | 4 |

Glass Washer Anti-Insect Crystal

The composition with increased washing capacity quickly removes all kinds of dirt. Protects the washing system from deposits and blockages. Does not leave any streaks and film. It is used sparingly, has neutral scent.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln1616 / 4 L | 4 |

AntiRain Hydrophobic glass washer

A unique cleaning liquid to add to the washer tank. Forms a dense hydrophobic coating on the windshield. Promotes instant rolling of water droplets when the car is moving under the action of an oncoming air flow and the own weight of the droplets. Gives maximum comfort when driving in a country and urban cycle.

LAVR®

MOTOLINE

LAVR MOTOLINE

РАЗРАБОТАНО И ИСПОЛЬЗУЕТСЯ

PRO
ПРОФЕССИОНАЛАМИ МОТОСПОРТА

7 LAVR MOTOLINE is the standard of high-quality moto chemicals

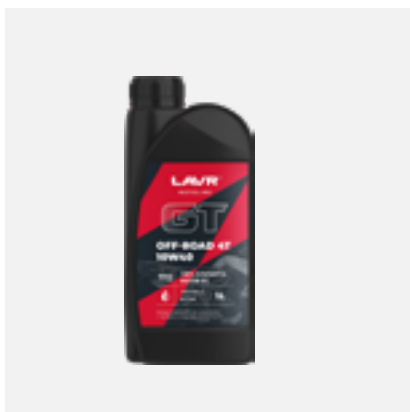

A specialized line of compositions for the care and maintenance of motorcycles, created by a motorcyclist for motorcyclists.

High-quality lavr motoline products are specially designed for operating conditions in Russia and the neighbouring countries. Each compound has passed multi-stage tests together with motorsport professionals.

2 Proven effectiveness in practice

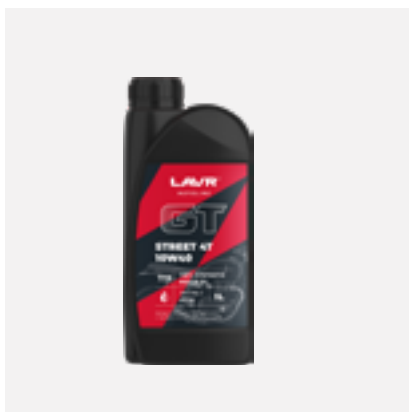

The line has successfully passed the tests of big sports — throughout 2023, LAVR MOTOLINE products were the official products of highway and ring motorcycle racing LAVR MOTORING, used by the pilots of the most powerful and fastest motorcycles, pointing out its high quality and reliability

Moto Engine Oil GT SNOW 4T 0W40

Synthetic Moto Engine Oil for 4-stroke engines of snowmobiles and quads. It protects during cold start, when there may be significant wear on engine parts, and also ensures a stable start of the engine. The oil retains its properties at extreme temperatures and is suitable for use in extreme weather conditions.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7741 / 1 L | 16 |
| Ln7742 / 4 L | 4 |

Moto Engine Oil RIDE UNIVERSAL 2T

Semi-synthetic engine oil is specially developed for use in 2-stroke petrol engines of motorcycles, scooters, mopeds, garden equipment and hand-held motor tools.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7749 / 1 L | 16 |
| Ln7750 / 4 L | 4 |

Moto Engine Oil RIDE BASIC 4T 10W40

Semi-synthetic engine oil for 4-stroke petrol engines of motorcycles, ATVs, scooters, mopeds and other motor vehicles.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7745 / 1 L | 16 |
| Ln7746 / 4 L | 4 |

Moto Engine Oil RIDE UNIVERSAL 4T 10W40

Semi-synthetic engine oil for 4-stroke petrol engines of motorcycles, ATVs, scooters, mopeds and other motor vehicles with air and liquid cooling.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7747 / 1 L | 16 |
| Ln7748 / 4 L | 4 |

Moto Engine Oil RIDE SPECIAL 4T 10W40

Synthetic engine oil specially developed for motorcycles with 4-stroke high-performance engines.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7849 / 20 L | 1 |
| Ln7850 / 60 L | 1 |

Moto Engine Oil RIDE BASIC 4T 10W40

Semi-synthetic engine oil for 4-stroke petrol engines of motorcycles, ATVs, scooters, mopeds and other motor vehicles.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7845 / 20 L | 1 |
| Ln7846 / 60 L | 1 |

Moto Engine Oil RIDE UNIVERSAL 4T 10W40

Semi-synthetic engine oil for 4-stroke petrol engines of motorcycles, ATVs, scooters, mopeds and other motor vehicles with air and liquid cooling.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7847 / 20 L | 1 |
| Ln7848 / 60 L | 1 |

Moto Engine Oil RIDE SPECIAL 4T 10W40

Synthetic engine oil specially developed for motorcycles with 4-stroke high-performance engines.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7743 / 1 L | 16 |
| Ln7744 / 4 L | 4 |

Moto Engine Oil RIDE SPECIAL 2T

Synthetic engine oil for demanding 2-stroke engines of motorcycles, cross, enduro, mopeds, scooters.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7751 / 1 L | 16 |
| Ln7752 / 4 L | 4 |

Масло моторное RIDE POWER 4T 20W50

Semi-synthetic engine oil is specially developed for use in 4-stroke petrol engines of motorcycles, scooters, mopeds, garden equipment and hand-held motor tools.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7753 / 1 L | 16 |
| Ln7754 / 4 L | 4 |

Moto Engine Oil RIDE UNIVERSAL 4T 10W50

Semi-synthetic oil is used in motorcycles with powerful engines under difficult conditions. Its balanced composition protects mechanical parts from wear and provides oxidation resistance. It also cools the engine during operation under any conditions, and has detergent properties that reduce the formation of carbon deposits.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7755 / 1 L | 16 |
| Ln7756 / 4 L | 4 |

Moto Engine Oil RIDE QUADRO ATV 4T 5W40

Synthetic oil for all-season use in 4-stroke quads and ATVs equipped with air or liquid cooling systems. The high-quality hydrocracked base and modern additive package ensure optimal pressure in the lubrication system, stable engine lubrication, and smooth gearbox operation of your ATV.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7761 / 1 L | 16 |
| Ln7762 / 4 L | 4 |

Moto Engine Oil RIDE SNOW 2T

Full synthetic moto engine oil for 2-stroke engines of snowmobiles, quad bikes and other air or water-cooled vehicles with automatic oil supply or pre-mixing

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7763 / 1 L | 16 |
| Ln7764 / 4 L | 4 |

Moto Engine Oil RIDE SNOW 4T 0W40

Synthetic Moto Engine Oil for snowmobiles equipped with a 4-stroke engine. Thanks to its high-quality synthetic base from groups 3 and 4, this oil maintains its effective properties even at ambient temperatures down to -45°C.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7797 / 1 L | 16 |
| Ln7798 / 4 L | 4 |

Moto Engine Oil GT MARINE 2T

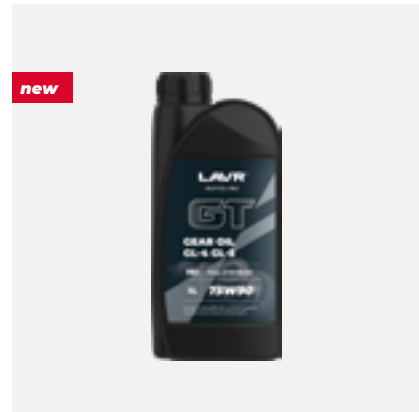

Semi-synthetic low-smoke engine oil for two-stroke –high-powered outboard engines, jet skis, marine and river equipment with air and water cooling. A synthetic base and a modern additive package with nanocarbon reinforcement technology significantly reduce friction. Protects from wear and corrosion, neutralizes the negative effects of interaction with salt water.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7799 / 1 L | 16 |
| Ln7790 / 4 L | 4 |

Moto Engine Oil GT MARINE 4T 10W40

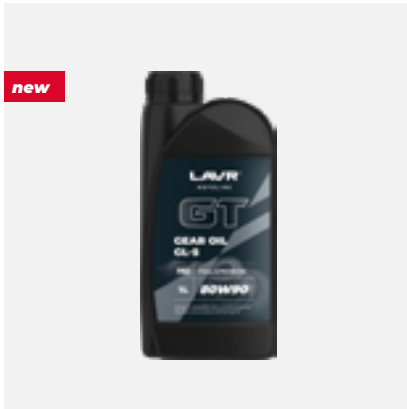

Synthetic oil for four-stroke outboard petrol engines of water equipment and jet skis. It was created on the basis of a hydrocracking base with a high degree of purification and special additives for the marine sector. Protects the engine under extremely harsh operating conditions. Suitable for engines with catalytic converters.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7901 / 1 L | 16 |

Transmission oil GT GEAR OIL GL-4 GL-5 75W90

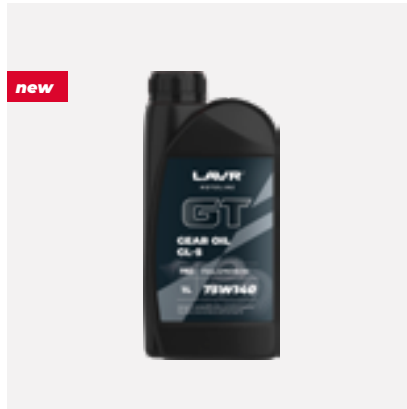

Synthetic transmission oil has the highest protective properties, ensures smooth switching and protects the gears from jamming and wear. It is intended for reduction gearboxes and gearboxes of motorcycle equipment and for lubrication of differentials, rear axles, steering mechanisms and other transmission

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7902 / 1 L | 16 |

Transmission oil GT GEAR OIL GL-5 80W90

Synthetic transmission oil has the highest protective properties of hypoid gears against wear, ensures resistance to shear loads, and maintains stable viscosity under any temperature loads. Designed for motorcycle reduction gearboxes, axles, gearboxes, hypoid, conical and worm gears and other transmission components.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7903 / 1 L | 16 |

Transmission oil GT GEAR OIL GL-5 75W140

Synthetic transmission oil has excellent thermal oxidative stability and retains viscous characteristics under any operating conditions. It is recommended for use in heavily loaded gears, differentials, power take-off boxes, planetary gears operating under conditions of elevated temperatures, high speeds and shock loads.

Fork oil

PROTECTS FROM WEAR
AND CORROSION INCREASING
THE FORK SERVICE LIFE

PREVENTS FOAMING

IT HAS NO EFFECT ON GASKETS
AND OIL SEALS

Designed for all types of telescopic forks of highway and off-road motorcycles. The high-tech additive package preserves the suspension characteristics and ensures reliable operation of telescopic forks and shock absorbers. They allow you to operate a motorcycle in a variety of climatic conditions.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7717 / 190 ml | 12 |

Moto engine flush 4T

Composition for cleaning the oil system of 4-stroke engines. Layer by layer softens and removes carbon deposits and varnish deposits. Promotes the restoration of compression and prolongs the life of the new oil. Suitable for engines with a «wet» clutch. Compatible with all types of engine oils for 4-stroke engines.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7718 / 2x120 ml | 12 |

Two-level moto fuel system cleaner 4T

Additive for cleaning the fuel system of 4-stroke engines of motor vehicles. Sequentially splits and removes deposits from injectors and fuel lines. Restores engine power and normalizes fuel consumption.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7719 / 345 ml | 12 |

Moto cooling system cleaner

A special composition for cleaning the cooling system of motor vehicles engines. Maintains the washed dirt in a suspended state without clogging narrow channels and tubes. Ensures complete removal of dirt from the cooling system. Restores the normal thermal mode of the engine.

new

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7736 / 400 ml | 12 |

Engine internal preservative

Preservative lubricant for protection from rust, oxidation and corrosion of the engine's CPG. Displaces moisture and protects from condensation. Forms a thin oil film, increasing the service life of the engine. It is washed off during depreservation with a fuel mixture. It is compatible with all engine oils and all types of engines.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7701 / 650 ml | 12 |

Chain Cleaner

Fast cleaning and degreasing of all types of motor and bicycle drive chains. It dissolves tough dirt such as lube, road and traffic contamination. The high pressure of 5 atmospheres washes away dirt and lube in seconds.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7772 / 140 ml | 12 |
| Ln7712 / 400 ml | 12 |
| Ln7702 / 520 ml | 12 |

Moto chain White lube

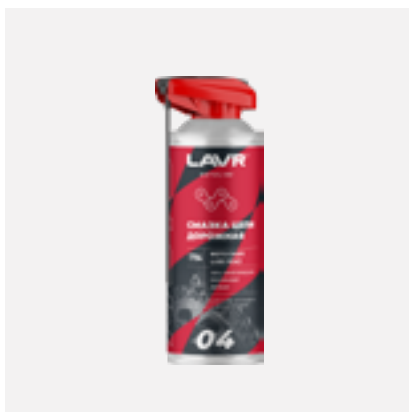

Multi-Purpose White Synthetic Lube. Anti-friction PTFE component guarantees friction reduction in all moving parts which increases their service life. Protects chain even in extreme conditions preventing dirt and dust pickup. Compatible with chains without and with oil seals.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7713 / 400 ml | 12 |
| Ln7703 / 520 ml | 12 |

Chain Lube OFF-ROAD

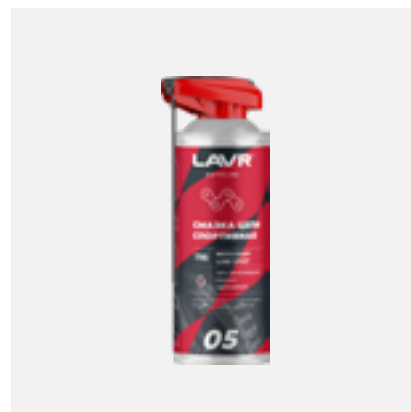

Synthetic lube with PTFE for all types of off-road chains. Anti-friction additives with high penetration capacity protect chain links, rollers, and rings from shock stress. Non-adhesive base prevents sand and dirt adhesion. Developed specifically for continuous operation of motorcycles and power products across country.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7774 / 140 ml | 12 |
| Ln7714 / 400 ml | 12 |
| Ln7704 / 520 ml | 12 |

Chain Lube ROAD

Adhesive synthetic lube for fast-moving motorcycle chains. Developed for road motorcycles with O-ring, X-ring, and Z-ring sealing types and without them. Creates lubricating film which is resistant to water and dirt. Protects chain rings regardless of load and speed.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7775 / 140 ml | 12 |
| Ln7715 / 400 ml | 12 |
| Ln7705 / 520 ml | 12 |

Chain Lube SPORT

New generation red synthetic lubricant is developed for sports and racing motorcycles chain drives. Protects chain in high load and racing conditions. Red color allows to control application and the residual amount of lubricant after sticking. Additives that increase adhesion keep lube on the chain at speed above 250 km/h in any weather.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7706 / 1 L | 12 |

Air Filter Remover Concentrate

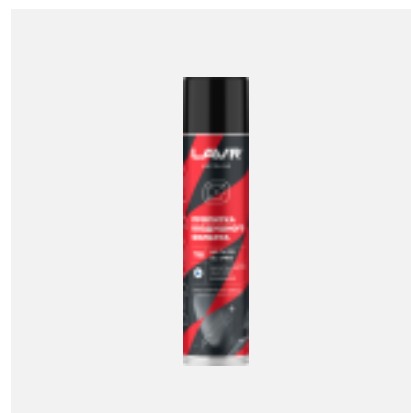

Water-soluble concentrate without the content of flammable solvents for flushing filters made of any fine-pored materials. The technologically advanced and safe formula removes dirt, sand, grease and stubborn soiling in 10 minutes. Does not damage the structure of the air filter, even with frequent washing.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7707 / 580 ml | 12 |

Air Filter Oil

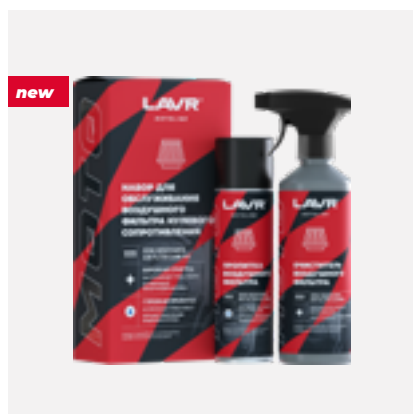

The product compound prevents road and operational dirt from entering intake system. The super-adhesive base keeps dirt and water on the surface of the filter under the most extreme conditions and protects filter structure from damage.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7708 / 400 ml | 12 |

Air Filter Oil Spray

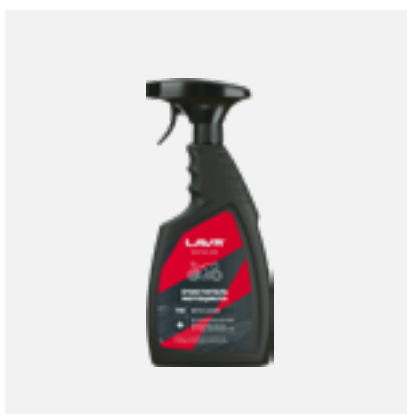

The spray compound prevents road and operational dirt from entering intake system. The super-adhesive base keeps dirt and water on the surface of the filter under the most extreme conditions and protects filter structure from damage. The product is easy to control when applied due to the blue color.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7777 / 335, 500 ml | 12 |

Zero resistance filter maintenance set

Set of special compounds for the maintenance of low- and zero-resistance air filters for motorcycle and automotive engines. The composition includes a cleaner and impregnation, which normalize the efficiency of the intake system, improve the mixing process and extend the service life of the engine. It is not suitable for paper and foam filters.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7709 / 500 ml | 20 |

Moto Cleaner

Washing composition for quick cleaning of all operational dirt. It easily copes with dirt, insect traces, soot and light deposits, without requiring the use of water. Suitable for surfaces made of any materials. Absolutely safe for parts made of all metals and alloys.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7710 / 1 L | 12 |

Motoshampoo Touchless

The first low-alkaline shampoo for touch-free cleaning with an acidity value of Ph9. Safely removes all operational dirt without streaks and stains. It is completely harmless to any structural materials and elements of the motorcycle. Works in any water temperature and hardness.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7711 / 20 ml | 40 |

Helmet and Visor Cleaner

Composition for the rapid removal of insect traces and road dirt from the surfaces of the helmet and visor. Eliminates insect traces and all types of operational dirt, without leaving streaks and cloudy film. Completely safe for polycarbonate and glass.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7720 / 310 ml | 12 |

Moto textile cleaner

Special cleaning agent for motorcycle equipment made of dissimilar textile materials. It is used to remove any operational dirt. Removes dust, dirt, greasy stains and insect traces. Gently and quickly cleans all types of motorcycle textiles. Refreshes the color and texture of the material. It is safe for protection elements made of any materials. Does not require additional rinsing with water.

| vendor code / packing | quantity |
|-----------------------|----------|
| Ln7778 / 120, 200 ml | 8 |

Leather equipment care set

Set of two special compounds for cleaning operational contaminants, care, restoration and protection of motor equipment made of natural, artificial and eco-leather: equipment, gloves, saddles and trunks. Restores its original appearance, enhances the wear resistance of the material, and is suitable for most leather types.

7 bi bi care is a smart solution for car enthusiasts here and now

The products are designed according to lavr brand quality standards. This allows you to argue for a quality guarantee and high requirements during development and production.

bi bi care is the best solution for getting to know professional car chemicals and car care for a consumer who is not yet ready to use our main line.

2 What is the difference from the LAVR main line?

The brand is designed for the mass market, where customers are looking for more affordable and economical options for their car.

Simplified product compositions and components ensure a sufficient level of safety, quality and efficiency.

An optimal product portfolio creates convenience and ease of choice, helping customers make a purchase decision faster.

vendor code / packing quantity

Art. 4303 / 280 ml 20

5-minute Engine Flush

Product for petrol and diesel engine oil system flushing. Effectively removes oil decomposition products and mechanism wear. Helps to reduce the non-spillable residue by more than 2 times. Prevents coking of piston rings.

vendor code / packing quantity

Art. 4301 / 280 ml 20

Cooling System Flush

An effective product to flush the cooling system and protect against overheating. Gently removes scale, rust, eliminating the typical consequences of contamination of the cooling system. It does not contain alkali.

vendor code / packing quantity

Art. 4302 / 280 ml 20

Radiator Sealant

Product for sealing the engine cooling system. It quickly eliminates leaks due to its polymers that create an elastic plug in a leak spot. Safe for metal, rubber and plastic parts.

vendor code / packing quantity

Art. 4501 / 280 ml 20

Injector Cleaner PETROL

A product for cleaning the injection system of petrol engines. Due to the property of directional action, it is activated in high-temperature zones, completely cleans injectors, restoring their spray pattern. Does not clog injectors with dirt from fuel lines, filters and fuel tank.

vendor code / packing quantity

Art. 4502 / 280 ml 20

Injector Cleaner DIESEL

A product for cleaning the injection system of diesel engines. Due to the directional action property, it is activated in high-temperature zones, ensuring complete and safe cleaning of injectors. Does not clog the system with deposits from fuel lines, filters and fuel tank. Flushes and lubricates high and low pressure fuel pumps.

vendor code / packing quantity

Art. 4503 / 280 ml 20

Art. 4504 / 280 ml 20

Antigel with Dispersant DIESEL

The additive in diesel fuel guarantees cold start and smooth operation of the engine at temperatures up to -45 °C. Thanks to the dispersant in the composition, it prevents paraffin precipitation in a fuel tank and clogging of filters after a long downtime in the cold. Lubricates fuel injection equipment and protects it from corrosion.

vendor code / packing quantity

Art. 4505 / 250 ml 20

Octane Plus

The additive increases the petrol octane number by 2-3, depending on the quality of the modified fuel. Improves the processes of mixing and prevents carbon formation. Increases engine service life. Reduces fuel consumption. It is safe for a catalytic converter.

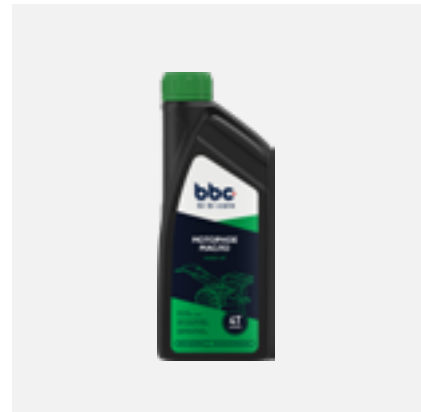

vendor code / packing quantity

Art. 4310 / 1 L 10

Moto Engine Oil TECHNO 2T

Semi-synthetic low-smoke oil for 2-stroke engines of trimmers, chain saws, gas drills, lawn mowers and other garden equipment, where API TC class is recommended. Meets the requirements of environmental regulations, does not pollute the lawn, soil. It contains a high-tech additive package that prolongs the service life of the engine.

vendor code / packing quantity

Art. 4311 / 1 L 10

Moto Engine Oil TECHNO 4T

Semi-synthetic all-season oil for four-stroke petrol or diesel engines of garden equipment with air and liquid cooling, where the SJ/CF class is recommended. It has high anticorrosive and antioxidant properties. It helps to easily start the engine at low temperatures during the winter period of operation.

vendor code / packing quantity

Art. 4415 / 85 g 12

Sealant gasket silicone black

A special sealant for the connection points of adjacent assemblies and parts of engines, gearboxes, reduction gearboxes and transmissions. It can be used to seal the gaskets of the valve cover, pump and thermostat housing, etc. It has high adhesion to steel, cast iron and aluminum surfaces. It is resistant to water, petrol and other lubricants.

vendor code / packing quantity

Art. 4416 / 85 g 12

Sealant gasket silicone grey

A special sealant for the connection points of adjacent assemblies and parts of engines, gearboxes, reduction gearboxes and transmissions. It can be used to seal the gaskets of the valve cover, oil pan, inlet manifold, etc. It does not contain acids and solvents, which ensures application in electrical connections and sensors. It is resistant to water, petrol and other lubricants.

vendor code / packing quantity

Art. 4417 / 70 g 12

Sealant gasket silicone transparent

A special sealant for the repair and polymerization of glass and plastic elements of the car. It can be used to repair and seal the joints of windows and lampshades, brake lights, headlights, plastic elements, hatches, etc. It has high adhesion to glass, plastic, metal, ceramics, rubber. It is resistant to water, petrol and other lubricants.

Art.4004
400ml

Liquid key

DISSOLVES
RUST

SIGNIFICANTLY SIMPLIFIES
UNSCREWING

Multipurpose product for part disassembly. It has high penetration capacity that makes unscrewing rusted and stuck joints easy. Displaces moisture and protects from corrosion.

Art. 4010 / 210 ml

Art. 4056 / 650 ml

vendor code / packing quantity

Art. 1751 / 58 g 35

Cold Welding Multiple Purpose

A two-component compound for joining parts made of ferrous and non-ferrous metals, wood, plastic, glass, ceramics and other materials. Eliminates leaks of radiators, tanks, water pipes, etc. Provides high adhesion to wet oiled surfaces. The fusion is not unlike in strength to the welding.

vendor code / packing quantity

Art. 4407 / 6 ml 32

Threadlocker Removable

It is used for sealing and fixing joints that require a periodic disassembly during maintenance services. Prevents self-unscrewing and thread corrosion.

vendor code / packing quantity

Art. 4408 / 6 ml 32

Threadlocker Non-removable

It is used for sealing and fixing joints subject to vibration, shock stress and high temperatures, requiring disassembly only in case of major repairs.

vendor code / packing quantity

Art. 4008 / 210 ml 12

Art. 4007 / 400 ml 12

Art. 4046 / 650 ml 12

Multi-Purpose Spray RC-40

RC-40 is the new name of a proven product for lubricating and displacing moisture. Multipurpose lubricant eliminates creaking, jamming, disconnects rusted joints, protects from corrosion and current leakages. At the same time, it is more profitable than imported analogues.

vendor code / packing quantity

Art. 4013 / 210 ml 12

Art. 4005 / 400 ml 12

Art. 4045 / 650 ml 12

Silicone Spray

Prolongs the service life of rubber seals and prevents them from freezing. Restores elasticity of rubber parts, protecting against aging. Eliminates the creaking of door hinges, rubbing plastic elements of the interior and car body.

vendor code / packing quantity

Art. 4409 / 210 ml 12

Art. 4410 / 650 ml 12

PTFE Chain Lube

The lube is intended for the care of the chain, metal elements and assemblies of motorcycles, bicycles and other motor vehicles. Anti-friction PTFE component guarantees friction reduction in all moving parts which increases their service life. It is ideal for the equipment storage. It is used for lubrication of chains, gears and electric petrol tools.

Copper Spray

Highly adhesive lubricant for processing parts subjected to high thermal stress and corrosion factors. Retains the effect in extreme temperatures. Protects against sticking, jamming, welding and corrosion. Provides easy disassembly of mechanisms after their long-term operation.

Graphite spray

An all-purpose product for lubricating friction joints exposed to high loads. It has high anti-wear properties and increased adhesion to surfaces. It is used for treating car parts, cables, threaded joints, running screws, low-speed bearings, industrial equipment and other mechanisms.

Adhesive spray

The product provides excellent lubrication in areas subject to high loads, shocks and vibrations. Due to its high penetrating power and rapid thickening, the lubricant provides long-term protection, preventing wear even in the most difficult operating conditions. Resistant to flushing and abrasion.

1

All-Purpose Part Cleaner

Universal composition for cleaning and degreasing car parts. Instantly and effectively cleans and degreases engine parts, transmission and other components and assemblies from all types of technical dirt: dust, oil, carbon deposits, etc.

Throttle Valve Cleaner

Quickly and effectively eliminates dirt of the throttle assembly. Cleans metering system, carburetor chambers, throttle valves and filter screens from tar, varnish deposits and coke. Restores throttle mobility and idle stability.

Brake disc cleaner

Cleans the brake parts as well as other car parts and other equipment. Ensures maximum deposit dissolution of oil products, lubricants, gums, carbon, dirt, brake fluids and grease. It can be used as an all-purpose degreaser for parts.

vendor code / packing quantity

Art. 4405 / 650 ml 12

Brake Disc Cleaner

Removes soot, oil and road dirt from all braking parts. Cleans and degreases brake mechanisms, restores clutch and ABS system performance. Eliminates squeals, improves braking performance and prolongs brake mechanism life. Evaporates quickly without leaving any residue.

vendor code / packing quantity

Art. 4022 / 500 ml 12

Rust Remover with Zinc

A product for fast and effective rust removal. It is easy to apply, quickly penetrates rust and facilitates the surface treatment process. Steel products are subject to treatment: garages, roofs, fences and pipes, products with welded seams, rivet joints. Treatment before painting or applying other protective coatings.

vendor code / packing quantity

Art. 4021 / 400 ml 12

Art. 4053 / 650 ml 12

Anticor Movil

Anticorrosion coating for hidden cavities of thresholds, arches, doors, protecting the bottom of the car. Displaces water and forms a resistant and plastic protective film that prevents the formation of rust, isolating the metal from moisture, air and the effects of aggressive chemicals.

vendor code / packing quantity

Art. 4411 / 210 ml 12

Electrical contact cleaner

Quickly and effectively cleans electrical contacts, connectors and car power system elements from oxides, greasy and oily stains. Eliminates current leaks and restores electrical conductivity. Quickly evaporates leaving no traces on the surface.

vendor code / packing quantity

Art. 4412 / 210 ml 12

Quick Start

A product for quick and easy engine start at low temperatures and low fuel quality. It contains lubricating components and eliminates increased engine wear during cold start. Reduces ignition system load and increases starter and battery lives. Suitable for petrol and diesel engines.

vendor code / packing quantity

Art. 4304 / 500 ml 12

Oil Dirt Engine Cleaner

Removes dirt, petroleum products, oil deposits, stale soot and carbon deposits from engine compartment surfaces. Does not contain aggressive solvents, is safe for all construction materials and does not cause corrosion. Does not require any additional brushing and rinses off easily with water.

| vendor code / packing | quantity |
|-----------------------|----------|
| Art. 4305 / 650 ml | 12 |

Foam engine cleaner

Product for cleaning the external surface of engines of cars, motorcycles, boats, gardening and agricultural machinery from operational pollution and greases. The active foam does not drain from the treated surfaces, penetrates deeply and softens dirt. It does not cause corrosion and is easily washed off with water.

| vendor code / packing | quantity |
|-----------------------|----------|
| Art. 4211 / 150 ml | 8 |

All-purpose foam cleaner

The product cleans from various contaminants, without damaging color and structure of the material. Suitable for cleaning furniture and car interior upholstery, clothing, accessories and shoes, including the sole and welt. Preserves and refreshes the color, with a pleasant lime aroma.

| vendor code / packing | quantity |
|-----------------------|----------|
| Art. 4016 / 650 ml | 12 |

Interior Foam Cleaner

Foam cleaning agent for hard-to-remove dirt from the finishing elements of carpet, velour and textile materials. The active foam penetrates the fabric and quickly removes deep dirt, returning the upholstery to its original appearance.

vendor code / packing quantity

Art. 4014 / 500 ml 12

Upholstery Cleaner

Effectively removes complex dirt from fabric upholstery, carpets, velour and various surfaces in household. Restores color and texture to coatings, safe for plastic and vinyl parts. It has a nice citrus scent. Suitable for hand dry cleaning or cleaning with a Hoover.

vendor code / packing quantity

Art. 4054 / 500 ml 12

Leather cleaner with conditioner

Product for cleaning dirt from natural and artificial leather. It does not damage the surface, does not leave greasy traces, softens and protects from cracking. It has a pronounced matte effect. Suitable for use in cars, household and office furniture, shoes, clothes and accessories.

vendor code / packing quantity

Art. 4019 / 650 ml 12

Plastic Cleaner

Universal foam cleaner for cleaning plastic elements of the interior and exterior of the car. Effectively removes dust, dirt, insect residues, stains from technical fluids and food. Absolutely safe for all plastic coatings.

vendor code / packing quantity

Art. 4020 / 210 ml 12

Art. 4018 / 400 ml 12

Plastic Polish GRAPE

Cosmetic for polishing the interior plastic of the car. Forms a resistant polymer protective cover, mask small scratches giving the plastic its glossiness. It has an antistatic effect that prevents from dust accumulation.

vendor code / packing quantity

Art. 4017 / 400 ml 12

Plastic Polish VANILLA

Cosmetic for polishing plastic elements. Forms a resistant polymer protective cover, mask small scratches giving the plastic its glossiness. Protects parts from aging and fading, returns the original color and appearance of plastic surfaces. It has a nice vanilla scent.

vendor code / packing quantity

Art. 4039 / 500 ml 12

Plastic Polish

A product for the care of plastic surfaces with an antistatic effect. Cleans and polishes the surfaces making them shine. Protects plastic from aging and fading, does not allow dust to accumulate.

vendor code / packing quantity

Art. 4404 / 210 ml

12

Sticker Remover

Effective product for removing stickers, adhesive tape and traces of glue from glass, metal, plastic, ceramic and painted surfaces. The natural solvent D-limonene in the composition additionally gives the product a citrus scent.

vendor code / packing quantity

Art. 4036 / 500 ml

12

Quick Wax

Professional wax for car surface. Creates a resistant water-repellent film and protects the body from rain stains, road dust and chemicals. Adds lingering shine to the paintwork. Applies easily to the wet car body right after the car wash and aids the drying process. Requires no polishing.

vendor code / packing quantity

Art. 4052 / 100 ml

24

Body polish Anti-scratch

Effectively masks surface scratches and scuffs from any type of paintwork. Gently grinds and polishes the surface, gives it smoothness and a long-lasting mirror shine. Due to the content of soft abrasives in the composition, it easily removes traces of road chemicals and organic contaminants.

vendor code / packing quantity
